Message From the Publisher

I take this opportunity to present to you the East African Manufacture's and Investor's Directory 2022 edition. This edition has captured information on manufacturing and service sectors in the entire EAC region.

Companies are listed alphabetically and according to industry, product and service. Telephones contacts, whatsups numbers and email addresses of various establishments are readily available for easy communication.

This directory networks business community of East Africa states of Burundi, Kenya, Rwanda, Tanzania, South Sudan and Uganda to the outside world. It is one of the most cost effective advertising medium in East Africa in terms of circulation and wide appeal. The directory is updated, printed and distributed each to various establishments and general public free.

We have well established physical offices in the Five (5) EAC member states which acts as distribution outlets.

I take this opportunity once more to pay a special tribute to our esteemed clients and business partners across East Africa for the trust, confidence and support in terms of advertising. Without your support, this directory could have not been printed and distributed. Please continue supporting us so that we can together keep the spirit of EAC integration. Online edition is also updated yearly and can be accessed through www.eamanufact.com .

We wish you a happy reading and successful 2022

East Africa Community Background

EAC Secretary General,
Hon. Dr. Peter Mutuku Mathuki

EAC Background

The East African Community (EAC) is the regional intergovernmental organization of the Republics of Kenya, Uganda, the United Republic of Tanzania, South Sudan, Republic of Burundi and Republic of Rwanda with its headquarters in Arusha, Tanzania. The EAC aims at widening and deepening co-operation among the partner states and other regional economic communities in, among others, political, economic and social fields for their mutual benefit.

The Treaty for Establishment of the East African Community was signed on 30th November 1999 and entered into force on 7th July 2000 following its ratification by the Original 3 Partner States – Kenya, Uganda and Tanzania. The Republic of Rwanda and the Republic of Burundi acceded to the EAC Treaty on 18th June 2007 and became full Members of the Community with effect from 1st July 2007.

Aims and Objectives

The EAC aims at widening and deepening co-operation among the Partner States in, among others, political, economic and social fields for their mutual benefit. To this extent the EAC countries established a Customs Union in 2005 and are working towards the establishment of a Common Market by 2010, subsequently a Monetary Union by 2012 and ultimately a Political Federation of the East African States.

Enlargement of the Community

The realization of a large regional economic bloc encompassing Burundi, Kenya, Rwanda, Tanzania, South Sudan and Uganda with a combined of 177 million people, land area of 1.85 million sq kilometers and a combined gross domestic product of $ 41 billion, bears great strategic and geopolitical significance and prospects of a renewed and reinvigorated East African Community.

Current status

The regional integration process is at a high pitch at the moment. The encouraging progress of the East African Customs Union, the enlargement of the Community with admission of Rwanda and Burundi, the ongoing negotiations of the East African Common Market as well as the consultations on fast tracking the process towards East African Federation all underscore the serious determination of the East African leadership and citizens to construct a powerful and sustainable East African economic and political bloc.

Vision

The vision of EAC is to be a prosperous, competitive, secure, stable and politically united East Africa.

Our Mission

The mission of the Community is to widen and deepen economic, political, social and cultural integration in order to improve the quality of life of the people of East Africa through increased competitiveness, value added production, trade and investments.

Our Values

Underpinning the EAC is our commitment to our values:

- Professionalism
- Accountability
- Transparency
- Teamwork
- Unity in Diversity
- Allegiance to EAC ideals

The Secretariat

The Secretariat is the executive Organ of the Community. It ensures that the regulations and directives adopted by the Council of Ministers are properly implemented, and provides the Council of Ministers with strategic recommendations.

EAC Headquarter

The headquarters of the EAC Secretariat is located in Arusha, Tanzania.

Our Leadership

At the head of the EAC Secretariat is the Secretary General.

The Secretary-General is the principal executive and accounting officer of the Community as well as the Secretary of the Summit; he/she is appointed by the Summit for a fixed five-year, non-renewable term.

The four Deputy Secretaries-General deputies and support the Secretary-General in the management and executive direction of the EAC Secretariat. They are appointed by the Summit on recommendations of the Council and on a rotational basis. Each Deputy Secretary-General can serve a maximum of two three-year terms.

The Counsel to the Community is the principal legal adviser to the Community.

How we work

The EAC Secretariat is organized along 6 key offices, each having distinct spheres of responsibility. These key offices coordinate seamlessly as they carry out the day-to-day work of the Community.

Executive Office of the Secretary-General

- Office of the Secretary-General
- Counsel to the Community
- Corporate Communications and Public Affairs
- Regional Co-operation in Defense
- Internal Audit
- Resource Mobilization

Customs and Trade

Productive Sectors Directorate
Social Sectors Directorate
Co-operation in Political Matters
Political Affairs Department
International Relations Department
Peace and Security Department
Finance and Administration
Finance Directorate
Human Resources and Administration Directorate

East Africa Community Organs

The main Organs of the EAC are the Summit, the Council of Ministers, the Co-coordinating Committee, the Sectorial Committees, the East African Court of Justice, the East African Legislative Assembly and the Secretariat.

The Summit

The Summit comprising of Heads of Government of Partner States gives strategic direction towards the realization of the goal and objectives of the Community.

The Council of Ministers

The Council of Ministers (or simply, the Council) is the central decision-making and governing Organ of the EAC. Its membership constitutes Ministers or Cabinet Secretaries from the Partner States whose dockets are responsible for regional co-operation.

Every year, the Council meets twice, one meeting of which is held immediately preceding a meeting of the Summit. The Council meetings assist in maintaining a link between the political decisions taken at the Summits and the day-to-day functioning of the Community. Regulations, directives and decisions taken or given by the Council are binding to the Partner States and to all other Organs and Institutions of the Community other than the Summit, the Court and the Assembly.

The Council, each year, elects a Chairperson by rotation to serve a one-year term to the office of Chairperson of the Council of Ministers.

The Coordinating Committee

Under the Council, the Coordinating Committee has the primary responsibility for regional co-operation and co-ordinates the activities of the Sect oral Committees. It

also recommends to the Council about the establishment, composition and functions of such Sect oral Committees. It draws its membership from Permanent / Principal Secretaries responsible for regional co-operation from the Partner States.

Subject to any directions given by the Council, the Coordinating Committee meets twice a year preceding the meetings of the Council. Moreover, it may hold extraordinary meetings at the request of the Chairperson of the Coordinating Committee.

Sectoral Committees

Sectoral Committees conceptualize programs and monitor their implementation. The Council establishes such Sectoral Committees on recommendation of the Coordinating Committee.

The Sectoral Committees meet as often as necessary for the proper discharge of their functions.

The East African Court of Justice

The East African Court of Justice (or simply, the Court) is the principal judicial Organ of the Community and ensures adherence to the law in the interpretation and application of compliance with the EAC Treaty. It was established under Article 9 of the Treaty for the Establishment of the East African Community.

Arusha, Tanzania is the temporary seat of the Court until the Summit determines its permanent seat. The Court established its Sub-registries in the Partner States, which are located in the premises of the National Courts.

The Court is currently composed of ten judges, appointed by the Summit from among sitting judges of any Partner State court of judicature or from jurists of recognized competence, and the Registrar who is appointed by the Council of Ministers.

The Court has two divisions: an Appellate division and a First Instance division.

For more information, please visit the EACJ website.

The East African Legislative Assembly

The East African Legislative Assembly (EALA) is the Legislative Organ of the Community and has a cardinal function to further EAC objectives, through its Legislative, Representative and Oversight mandate. It was established under Article 9 of the Treaty for the Establishment of the East African Community.

The Assembly has a membership comprising of 45 elected Members (nine from each Partner State), and 7 ex-officio Members consisting of the Minister or Cabinet Secretary responsible for EAC Affairs from each Partner State, the Secretary-General and the Counsel to the Community totaling 52 Members.

The Assembly draws the authority to establish its Standing Committees from its Rules of Procedure. It currently has 6 Standing **Committees to execute its mandate:**

The Accounts Committee;

The Committee on Legal, Rules, and Privileges;

The Committee on Agriculture, Tourism and Natural Resources;

The Committee on Regional Affairs and Conflict Resolution;

The Committee on Communication, Trade and Investment, and

The Committee on General Purpose.

The EALA Commission which oversees the management of the Assembly is established following the enactment of the Administration of the EALA Act 2012.

For more information, please visit the EALA website.

The Secretariat

The Secretariat is the executive Organ of the Community. As the guardian of the Treaty, it ensures that regulations and directives adopted by the Council are properly implemented.

In service of the Community, the Secretariat comprises the Secretary-General, 4 Deputy Secretaries-General, the Counsel to the Community and hundreds of EAC staff members who carry out the day-to-day work of the EAC as mandated by the Council.

The Secretary-General is the principal executive and accounting officer of the Community, the head of the Secretariat and the Secretary of the Summit; he/she is appointed by the Summit for a fixed five-year, non-renewable term.

The Deputy Secretaries-General are appointed by the Summit on recommendations of the Council and on a rotational basis. They deputies the Secretary-General and each serves a three-year term, renewable once.

The Counsel to the Community is the principal legal adviser to the Community.

Working in East Africa

The EAC Common Market Protocol allows workers from any Partner State to accept employment within any other EAC country. They cannot be discriminated against on the basis of their nationality.

Furthermore, a worker will have the right to social security benefits and can be accompanied by a spouse and children.

It is however worth noting that, Employment in the public service is excluded unless permitted by the particular Partner State.

Using the ILO classification, Partner States have committed to open up for the following categories of workers:

Burundi - Professionals; By 1st July 2010

Kenya - Managers, Professionals, Technicians and Associate Professionals, and Craft and Related Trades Workers; By 1st July 2010

Rwanda - Professionals and Technicians and Associate Professionals; By 1st July 2010

Tanzania - Professionals and Technicians and Associate Professionals; Ranging from 1st July 2010 to 2015

Uganda - Managers, Professionals and Craft and Related Trades Workers; By 1st July 2010

Entry, Stay and Exit

A citizen of a Partner State, who seeks to enter or exit the territory of another Partner State as a worker, shall do so at entry or exit points designated in accordance with the national laws of the Partner State and shall comply with the established immigration procedures.

Work Permits

A worker who has a contract of employment of a period of more than 90 days in the territory of another Partner State shall apply to the competent authority for a work permit within 15 working days from the date of entry into the territory of the host Partner State.

Where a worker secures employment for a period of not more than 90 days, the worker shall apply for, and be issued with a special pass.

Where the competent authority rejects an application for a work permit, the competent authority shall in writing, notify the applicant, stating the reasons for the rejection.

Important to note

The Republics of Kenya and Rwanda have abolished work permit fees for East African nationals working in the two countries.

Access to Employment Opportunities

The Partner States shall endeavour to collect and disseminate information on job vacancies and put in place labour market information systems to facilitate access to employment opportunities by the citizens of the Community.

Equal Treatment in Employment

The Partner States provide for regular labour inspections and any other appropriate measures to ensure that the same treatment is accorded to the workers from other Partner States as is accorded to the nationals of the Partner State with regard to:

- Terms and conditions of employment;
- Equal opportunities for both men and women and in particular, access to employment;
- Occupational health and safety;
- Contribution to a social security scheme;
- Access to vocational training;
- The freedom of association and the right to collective bargaining;
- Access to dispute resolution mechanism; and
- Any other right accruing to a worker under the provisions of the national laws of the Partner State.

Self-Employment

EAC citizens have the right to establish their business in any Partner State and pursue economic activities in accordance with the national laws of the Partner State.

Self-employed persons are able to carry out their work across the region, and be entitled to social security schemes in the host country.

The Protocol requires Partner States to remove all restrictions on the right of establishment based on the nationality of the companies, firms and self-employed persons.

2022 EDITION

H.E. ÉVARISTE NDAYISHIMIYE

President of the Republic of Burundi

Geography of Burundi

One of the smallest countries in Africa, Burundi is landlocked and has an equatorial climate. Burundi is a part of the Albertine Rift, the western extension of the East African Rift. The country lies on a rolling plateau in the centre of Africa. The average elevation of the central plateau is 1,707 m (5,600 ft), with lower elevations at the borders. The highest peak, Mount Heha at 2,685 m (8,810 ft), lies to the south East of the capital, Bujumbura. The source of the Nile River is in Bururi province, and is linked from Lake Victoria to its headwaters via the Ruvyironza River. Lake Victoria is also an important water source, which serves as a fork to the Kagera River. Another major lake is Lake Tanganyika, located in much of Burundi's southwestern corner.

Burundi's lands are mostly agricultural or pasture. There are two national parks, Kibira National Park to the northwest (a small region of rain forest, adjacent to Nyungwe Forest National Park in Rwanda) Ruvubu National Park to the northeast (along the Rurubu River, also known as Ruvubu or Ruvuvu). Both were established in 1982 to conserve wildlife populations.

Economy of Burundi

Burundi's largest industry is agriculture, which accounted for just over 30% of the GDP. Subsistence agriculture accounts for 90% of agriculture. The nation's largest source of revenue is coffee, which makes up 93% of Burundi's exports. Other agricultural products include cotton, tea, maize, sorghum, sweet potatoes, bananas, manioc, beef, milk, and hides. Subsistence farming is highly relied upon, however due to large population growth and no coherent policies governing land ownership, many people don't have the resources to sustain themselves. In 2014, the average farm size was about one acre.

Some of Burundi's natural resources include uranium, nickel, cobalt, copper, and platinum. Besides agriculture, other industries include: assembly of imported components; public works construction; food processing, and light consumer goods such as blankets, shoes, and soap.

Burundi is part of the East African Community and a potential member of the planned East African Federation. Economic growth in Burundi is relatively steady.

Currency

Burundi's currency is the Burundian franc (ISO 4217 code BIF

Monetary Policy is controlled by the central bank, Bank of the Republic of Burundi.

Bujumbura Mayorship

General Jimmy HATUNGIMANA
Mayor of Bujumbura City

Amb. Jean Bosco BAREGE
Chief of the Staff of the Mayor

Christopher KINSHASA
Socio Cultural Advisor

Ir. Rhamadhan NKURIKIYE
Development Advisor

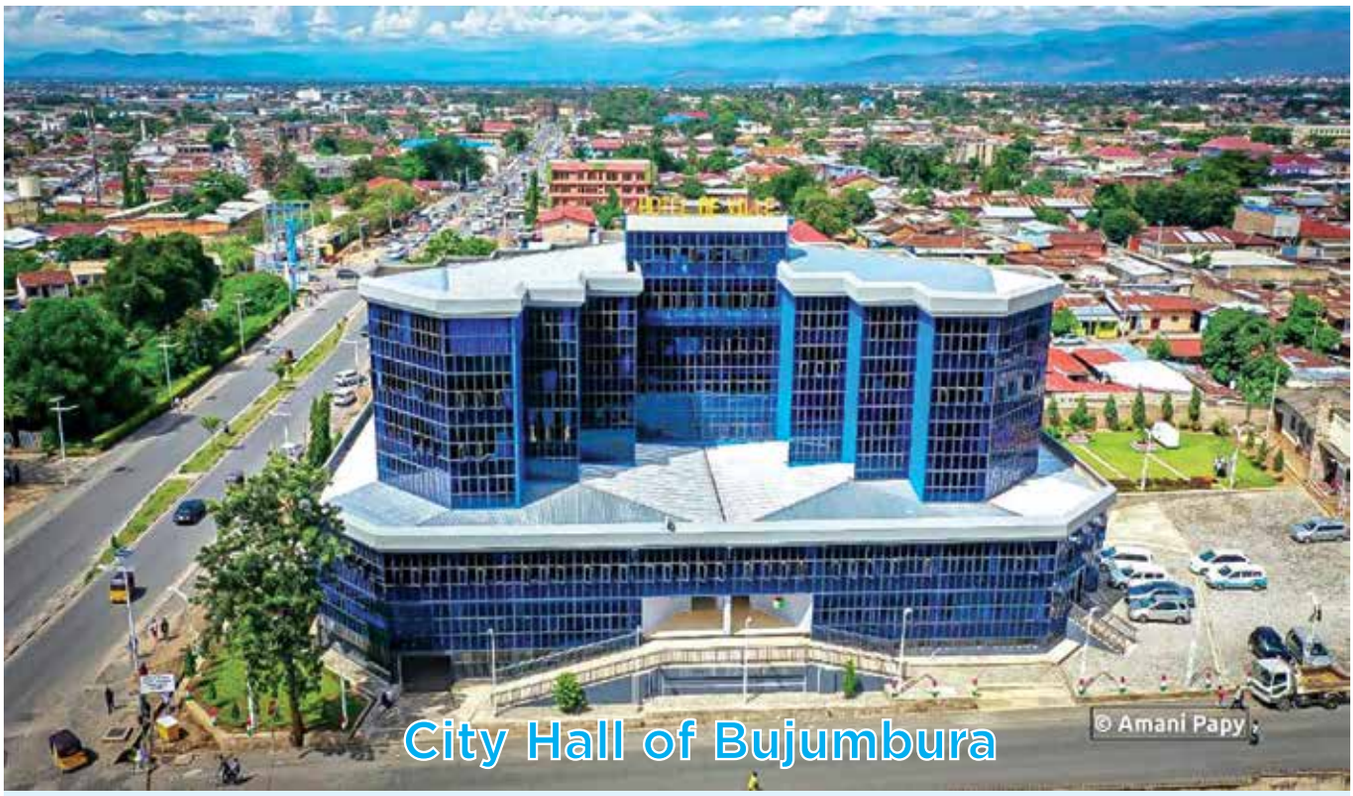
1. Presentation

Bujumbura Mayorship is one of the eighteen provinces of Burundi. It consists entirely of the city of Bujumbura, Burundi's former capital, actual economic capital of the country.

The municipal administration is organized into a central administration and a District administration.It is directed at the highest level by an advisory body that is the Municipal Council and at the head of the institution, the Mayor is directly responsible. The Mayor is surrounded by the chief of staff five advisors and eight departments make up the town hall. The services of the town hall are housed in a building newly built by the town hall and recently inaugurated called HOTELDE VILLE. This seven floors building also houses the private services for different businesses.

2. The Current Mayor and his Vision

The current Mayor's name is Commissary of Police Jimmy HATUNGIMANA. Since he started to lead the Bujumbura Mayorship, he has announced an urgent program; that of making the city peacefull, clean and attractive. With this context in mind, he launched the campaign to fill potholes in the streets of urban roads and the removal of waste scattered or deposited in a disorderly manner in different places of the city of Bujumbura.



City Hall of Bujumbura

Madam Anita NIMBONA
Finance Advisor

Some time ago, the Mayorship began to computerize its services in order to make them easily accessible to applicants, but also to fight against all forms of document fraud beginning by tax services but aiming to extend the system to other services.

Recently in the field of health, the mayor of Bujumbura signed an act of commitment concerning the fight against AIDS and COVID-19. Other projects for the development of the economic capital in different fields are being prepared.

Madam Madeleine KARABASUKA

ODECA Headquarts

OUR HISTORY

Benefiting from our values which are Integrity, Transparency, Speed, Efficiency and Efficiency, Continuous quality improvement, Fairness, Respect for gender and the environment, Innovation, etc. Taking advantage of our vision of being the best producer of the best quality coffee in the world and of our missions namely:

- Sustain the culture of coffee
- Supervise coffee growers in order to improve quantitative and qualitative production;
- Design the quality policy in order to print assurance, management and quality control throughout the value chain;
- Develop, validate and monitor compliance with quality standards;
- Collect and process statistical data and coffee information;
- Promote local consumption of coffee;
- Ensure the promotion and marketing of coffee from Burundi on a large scale;
- Strengthen the associative and cooperative movement of coffee growers;
- Monitor the coffee sector by ensuring compliance with the codes of conduct put in place at the level of the coffee sector;
- Ensure the certification of coffee exports produced and systems;

The exceptional quality of our coffee materialized by its fine sweetness, the aromas of tropical fruits, chocolate, jasmine, passion fruit, apricot and its unique aroma in the world of sweet lemon, a creamy body and a back- taste that leaves saliva to flow and a complex acidity combined smoothly, phosphoric, malic and tartaric; Achieving a quality of our coffee that quietly captures our customers around the world is our ultimate goal.

In order to be able to achieve its objectives and keep its place of choice, the Burundian Tea Office is planning a few strategic axes:

- Increase quantitative production by 20% by extending new tea fields
- Increase the qualitative production of dry tea by rigorous monitoring and compliance with the different standards of processing of salable dry tea
- Diversify its sales products to satisfy its customers and extend its sales networks to reach a wider audience
- Sensitize the growers to group together in cooperatives where, on an honorary basis, more than 16,424 the growers have joined together in the growers' cooperatives.

SOCIETE SUCRIERE DU MOSO

P.O. Box 835 GIHOFI - RUTANA
SIEGE DE LA SOSUMO
Tel: +257 22507008
BUREAU DE LIAISON - BUJUMBURA

When the MOSO Sugar Company "SOSUMO" carried out its first production in 1988 it produced 4000 tons of sugar. The Burundian population at that time was around 4 million inhabitants. Gradually with the expansion of cane plantations, the multiplication of varieties and other technical advances, sugar production increased significantly to 20,000 tonnes of sugar over the next 20 years.

Currently the population has tripled while national sugar production has not kept pace. On the contrary, it is going down because the factory is aging and facing many challenges leading to enormous costs for repairs, replacement of worn parts and especially the evolution of technology which means that we no longer find suitable parts, ...

Faced with this situation, the management of SOSUMO (supported by the state) is committed to increasing production to balance supply with demand at the national level until it reaches the foreign market. This is our bet. The Management is fully committed to succeeding in this mission and a lot of achievements are planned within the various Departments.

BUREAU DE LIAISON - BUJUMBURA

For the Agricultural Department:

The modernization and extension project will be carried out gradually, along 3 axes:

1. Extension of cultivable areas, occupied by cane and compliance with the agricultural calendar and on this point
2. Introduction of new varieties of sugar cane that are more productive, elite and resistant to diseases;
3. Improve the field fertilization system, irrigation and protection of fields against flooding.
4. Encourage the extension of the village cane.

To increase the technical capacity in the transport of cane and plowing, SOSUMO has just acquired, in addition to its cart, eight tractors and a plowing machine. This will allow the simultaneous transport of the cane for machining and plowing, which is normally done in midsummer, thus increasing from 3300 to 3900 hectares of areas occupied by cane.

- Respecting the agricultural calendar in terms of the availability of plowed areas followed by sowing in real time will allow good development of young seedlings throughout the rainy season.
- With the aim of obtaining more productive, elite and disease resistant varieties of cane, SOSUMO has just introduced 20 new varieties of sugar cane under trial in addition to six pre-existing ones.

Visit of the Vessel Construction Site by His Excellency the President of the Republic of Burundi

MUSUMBA CARGO is a new project company that has a double mission, namely the creation of employment and the promotion of maritime and lake transport in Burundi. The maritime transport in Burundi constitutes a pillar for the trade and the isolation. Burundi being a landlocked contry, roads as well as ports on Lake Tanganyika remain the only means to ensure imports and exports.

Site Web: www.musumba-steel.bi

The project for the exploitation and processing of gold dumps by the SOTB (Société de traitement des Terrilsd'or au Burundi) was motivated by the fact that studies already conducted on gold processing techniques in Burundi have revealed artisanal miners do not recover all the gold contrained in the ores due to the rudimentary processing methods. They only recover gold that is visible to the bare eye. This project is located on the Nyungu hill in Bwasare zone of the Gasorwe, Muyinga province.

MAGASIN IRAKOZE BURUNDI

20 YEARS
Serving the Nation

Specialized in selling construction materials, the IRAKOZE shop was created in 2001. It has around a hundred employees and distributors located in all provinces of the country.

«The secret behind our success is this familial passion that has always thrilled us. We practice our passion, not to amass fortunes, but to serve the country and the people», Oscar BIZINDAVYI

Our success: Good management and anticipation of needs

«We sought after how to increase the capacity of our stock to avoid any kind of stock falling-out. This allowed us to satisfy the demand. We couldn't afford a situation where a customer places an order that we weren't able to fulfill. So we anticipated. Each order placed, whatever its nature and size, has been satisfied. We were always prepared for this potentiality».

Our strength trump: An extraordinary bond with our customers

«We have established relationships with international partners who provided us with original materials. From Turkey, for example, we import corrugated sheets and rebars»

PRESENTATION OF SOCABU

As its name indicates, SOCABU is a Burundian insurance company operating since October 3, 1977. It is interested in all branches of insurance, LIFE and NON LIFE. It is established throughout the country with its headquarters in Bujumbura, the economic capital of Burundi. It has four direct regional branches (North, South, Centre-East and West). It collaborates with about sixty insurance intermediaries to reach the maximum number of people. It is the leader in the Burundian insurance market with a market share of over 40 PRESENTATION OF SOCABU %.

Our market is still in search of a niche even though itis already facing strong competition with 11 insurance companies.
Compared to other operators in the sector, SOCABU has a strong experience, financial solidity and a very good quality of services which make it the best insurer in the country. Indeed, SOCABU has avast real estate portfolio and a strong and diversified shareholder base operating in various economic areas of the country. In turn, SOCABU is a reference shareholder in the country's major companies, including major banks such as Banque Commerciale de Burundi (BANCOBU), Banque de Crédit de Bujumbura (BCB, a member of the BOA group), ECOBANK, Banque de l'Habitat (BHB), etc. SOCABU is also a shareholder in the major regional and African reinsurance companies, including AFRICA RE (the leading African reinsurer with an international reputation) and ZEP RE. SOCABU is also a partner of a major French international insurance group, AXA.
Financial income has increased year on year from 3 billion in 2015 to 11 billion in 2020, driven mainly by interest on investments and pension advances.

In terms of financial performance, the evolution of key figures such as turnover, equity, claims paid and balance sheet total over the last four years (2017 to 2020). A continuous increase from year to year can be observed as summarised in the following table (in million BIF):

Wording	2017	2018	2019	2020
Turnover	17 895	19 318	21 867	24 255
Own funds	28 972	38 855	40 015	41 143
Indemnities paid	7 711	6 838	8 933	16 534
Balance sheet total	96 829	120 568	134 827	141 584

In the future, SOCABU intends to expand its leadership position by implementing and strengthening the asset satourdisposal. We have just complete dastrategic development plan for the next five years. This plan embraces several axes that will allow us to increase our turnover at a rate of 15% per year and the control of technical and management costs.

PACK FAMILLE 2021

VOTRE PARTENAIRE LOYAL

★ BICOR ★

ASSURANCES

MEMBRE DU RESEAU GLOBUS

LES DOMMAGES ASSURABLES

Le produit Pack Famille comprend à la fois l'assurance Multirisque Habitation et l'assurance Individuelle tous Accidents.

1 LA GARANTIE INCENDIE-EXPLOSION

Avec tous les contrats PACK FAMILLE nous vous offrons en garantie de base la couverture des dommages matériels résultant d'un incendie, d'une explosion, d'une implosion, de la chute de la foudre, ainsi que les dégâts provoqués en éteignant un feu et nous vous assurons en valeur à neuf.

2 LA GARANTIE DOMMAGES ELECTRIQUES

L'assurance dommages électriques couvre vos appareils électriques utilisés au quotidien (réfrigérateurs, appareils télé, radios...) et qui auraient été détériorés par une surtension. Cette surtension doit être causée par une défaillance sur le réseau électrique ou par la foudre.

3 LA GARANTIE TEMPETE-OURAGAN-TORNADE (TOT)

Les contrats d'assurances PACK FAMILLE BICOR garantissant les dommages d'incendie ou tous autres dommages à des biens situés au Burundi couvrent obligatoirement les effets du vent dû aux tempêtes, ouragans et tornades.

4 LA GARANTIE DEGATS DES EAUX

La garantie Dégâts Des Eaux couvre les dommages mobiliers et immobiliers causés par l'eau. Cette garantie prend en charge les conséquences du sinistre sur vos meubles, vos sols ou vos murs ainsi que votre responsabilité éventuelle.

5 LA RESPONSABILITE CIVILE CHEF DE FAMILLE

Elle est une garantie qui prend en charge les dommages matériels et corporels, résultant d'un accident, causés à un tiers par vous, vos enfants, vos employés, les objets que vous utilisez ou les animaux domestiques vous appartenant ou dont vous avez la garde.

6 L'INDIVIDUELLE ACCIDENTS

Il s'agit donc d'une couverture pour les dommages physiques subis ;que ces dommages aient été causés par un responsable connu ou non, ou que l'assuré se soit accidentellement blessé seul.

7 FRAIS MEDICAUX

Lorsque l'accident dont l'Assuré a été victime nécessite des soins ou l'application d'un traitement ordonnés médicalement, nous garantissons, à concurrence du montant fixé au Pack famille et suivant le choix du client (ESSENTIEL-CONFORT-PRIVILEGE-PRIVILEGE PLUS), le remboursement sur production des pièces justificatives des frais engagés à cet effet.

UCAR LIFE and CAPITALISATION, more than an insurer, a partner, a guide.

UCAR LIFE and Capitalisation, S/A Share Capital: 2.000.000.000
Tél : +257 22280069, Website: UCAR-LIFE.com

Our products:

1. SUPPLEMENTARY PENSION:

The UCAR LIFE supplementary pension consists of savings made up by an employee during the entire period of his service in the company, a time which will be given to him upon his retirement or the end of his activity in the company, increased interest accrued annually. Upon retirement, the employee can choose to receive his or her fund in a lump sum or in the form of annuities.

2. SOCIAL PROTECTION:

It is an insurance contract, renewable annually, taken out by the employer for the benefit of the employees, by the employees themselves or by individuals. The benefits are in the form of lump sums paid to the beneficiary designated by the decided insured while he was still alive. These amounts can be a multiple of salary or a fixed amount chosen by the insured. "With UCAR LIFE, life is more serene".

3. EDUCATION INSURANCE:

By this contract, the insurance company undertakes to pay the designated beneficiaries the guaranteed study capital in the event of the death of the insured to build up savings for the studies of his children. "We are inspired by your needs"

Fertilisants Organo-Minéraux Industries (FOMI)

FOMI is a plant dealing with organo-mineral manufacturing and agricultural lime making.

It is located at Maramvya zone, Mutimbuzi subcounty, on the National Road 5, at 9 km from Bujumbura downtown and nearby the International Airport Melchior NDADAYE.

Currently, the plant personnel is beyond 3.000 with an average of production of 600 tons per day.

Mission

Support sustainable agriculture intensification by available good quality and accessible organo-mineral fertilizers in the East African sub-region.

Vision

To be a benchmark company in the production of qualified organo-mineral fertilizers in the East African sub-region.

Goal

To produce organo-mineral fertilizers and agricultural lime of better quality and enough quantity.

Values

Innovation, Honesty, Service

PRODUCTS

FOMI-IMBURA

A basal fertilizer for the majority of cultivated crops in Burundi with no need of top-dressing fertilizers application for legumes,
The composition is N-P-K-Ca-Mg, respectively with content of 9-22-4-13-2.

FOMI BAGARA

A top-dressing fertilizer mainly for K supply, shaped for roots and tuber crops. The composition is N-P-K-Ca-Mg with contents of 11-0-22-4-2

FOMI-TOTAHAZA

A top dressing N rich fertilizer, shaped for cereals and vegetables. The composition is N-P-K-Ca-Mg with contents of 21-0-8-4-2

AGRICULTURAL LIME

It is a dolomitic lime with 39% CaO and 20% MgO.

CERTIFIED
ISO 9001 : 2015
ISO 14001:2015
ISO 45001:2018
N° CH-46554
COMPANY

PERSPECTIVES

- Widen the range /list of FOMI products
- Adapt the packaging to the different wealth classes of farmers to take into account their purchasing power.
- Support further the research services, the agriculture intensification programs as well as the environment safeguard measures.
- Export extra production of fertilizers.
- Establish satellite plants in the EAC sub-region.

KENYA

Manufacturer's & Investor's Directory

2022 EDITION

H.E. UHURU KENYATTA

President of The Republic of Kenya

Kenya Profile

Kenya officially the Republic of Kenya, is a sovereign state in the African Great Lakes region of East Africa. Its capital and largest city is Nairobi. Kenya lies on the equator with the Indian Ocean to the south-east, Tanzania to the south, Uganda to the west, South Sudan to the north-west, Ethiopia to the north and Somalia to the north-east. Kenya covers 581,309 km2(224,445 sq mi) and has a population of about 52 million.

Kenya has a warm and humid climate along its Indian Ocean coastline, with wildlife-rich savannah grasslands inland towards the capital. Nairobi has a cool climate that gets colder approaching Mount Kenya, which has three permanently snowcapped peaks.

Further inland there is a warm and humid climate around Lake Victoria, and temperate forested and hilly areas in the western region.

The northeastern regions along the border with Somalia and Ethiopia are arid and semi-arid areas with near-desert landscapes. Lake Victoria, the world's second largest freshwater lake and the world's largest tropical lake, is situated to the southwest and is shared with Uganda and Tanzania. Kenya is famous for its safaris and diverse wildlife reserves and national parks such as the East and West Tsavo National Park, the Maasai Mara, Lake Nakuru National Park, and Aberdares National Park. There are several world heritage sites such as Lamu, and world renowned beaches such as Kilifi where international yachting competitions are held each year.

The African Great Lakes region, of which Kenya is a part, has been inhabited by humans since the Lower Paleolithic period. The Bantu expansion reached the area from West- Central Africa by the first millennium AD, and the borders of the modern state comprise the crossroads of the Niger- Congo, Nilo-Saharan and Afro-Asiatic ethno-linguistic areas of the continent, making Kenya a multi-cultural country. European and Arab presence in coastal Mombasa dates to the Early Modern period. European exploration of the interiorbegan in the 19th century.

The British Empire established the East Africa Protectorate in 1895, known from 1920 as the Kenya Colony. The Republic of Kenya became independent in December 1963. Following a referendum in August 2010 and adoption of a newconstitution, Kenya is now divided into 47 semi-autonomous counties, governed by elected governors.

The capital, Nairobi, is a regional commercial hub. The economy of Kenya is the largest by GDP in Southeast and Central Africa. Agriculture is a major employer and the country traditionally exports tea and coffee, and more recently fresh flowers to Europe.

The service industry is a major economic driver. Kenya is a member of the East African Community. Compared with other African countries, Kenya enjoys relatively high political and social stability.

Synresins

Manufacturers of Synthetic Resins

Proudly East African

About Us

EXCELLENCE SINCE 1982

Synresins was established with the goal of manufacturing and supplying high quality synthetic resins to the East African Market.

Today, we are the leading manufacturers of synthetic resins in Eastern and Central Africa. We have 35+ years of experience all aimed at providing various grades of resins in the market backed with excellent research and development facilities to ensure quality products.

We work closely with our customers to provide customized solutions.

Why You Should Work With Us

- We are 100% Kenyan Owned. When you buy from us you will get a great local partner.
- We manufacture synthetic resins of all types and can customize the resins to suit your plant and needs.
- We offer competitive prices and good customer service across East and Central Africa.

Contact us for a full list of our products and specifications

Contact us for further information and how we can partner with you:-

www.synresins.com
info@synresins.com
+254 20 210 0825/6
+254 735 777 704
+254 713 783 399

Our Products

Our products are manufactured with the utmost care, from sourcing the right materials, to ensuring the right process and performing quality checks before they are manufactured.

All resins are processed under supersvision by trained plant operators and under strict standard process measures which are closely monitored.

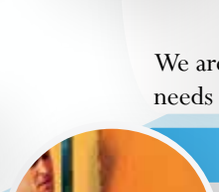
Manufactured products are put under standard specification testing and only approved for selling if the product meets 100% Quality

Alkyds

Our Alkyds Cover.

- Long Oil
- Medium Oil
- Medium Oil Chain Stopped
- Short Oil (Drying and Non Drying)
- Styrenated Alkyd
- Urethane Modified Alkyds

We are capable of tailor making products to meet your needs there by providing you with a competitive edge



Emulsions

Our Emulsions Range covers

- Pure-Acrylic
- Styrene-Acrylics
- VAM-BAM

These resins are suitable for the various products produced by the paint industry

Polyesters

Our polyester resin technology provides products with excellent physical properties which can be adjusted to meet customer requirements.

Customizable properties are

- Reactivity
- Cure time
- Viscocity
- NVC
- Gel Time

Homopolymers

Our homopolymer resin helps our customers meet the stringent enviromental compliance requirements while still providing the high level of performance that this demanding market expects

Typical end uses include:

- Wood and paper adhesives
- Textile stiffeners
- Binders

INTERNATIONAL SUPPLY CHAIN

KENYA TOP 100 MID-SIZED COMPANIES BUSINESS DAILY CLUB 2010

1982 - 2012 PC 30 YEARS

POWER CONTROLS LTD®

"Creating Electrical Excellence"

Industrial Electrical & Electronic Engineers, Panel Manufacturers & Class 'A1' Electrical Contractors

Based in the heart of Nairobi's Industrial Area in Kenya, Power Controls Ltd. has been operating for over **40** years in the domestic market. It is a private limited company, which was founded in 1982. Like most such companies, it is quite dependant upon it's very well experienced directors in all active areas, in the use and application of Industrial Electrical and Electronic equipment across a very broad industrial spectrum. During the company's existence, it has been continuously involved in the expansion of its services to the industry.

Power Controls Ltd. carries out contracting and installation, manufacture of Industrial Switchboards & Control Panels with state-of-the-art design technologies, sales of imported components from all over the world, which are now widely accepted by customers, all over East Africa. We also carry out repairs of all electrical and industrial electronic equipment and machines in our well-equipped testing workshops, supported by a very effective team.

Over the years, the Company has gained a reputation for supplying good quality products and good customer service, which has been made possible by the development of good practices and conscientiousness of both Sales and Production staff.

The Directors and staff constantly review working practices and any change found necessary is implemented. By this means, the Company is able to maintain and improve performance, quality and service. We have people in place to help you with almost any application you can imagine.

From its humble beginnings in 1985, we have grown to become a world class manufacturer of flexible packaging and are now one of the largest in the East and Central African region.

OUR CAPABILITY
We Offer:
» Extrusion (up to 7 layer)
» Printing (up to 8 colour flexo)
» In house reprographics with computer to plate technology
» Lamination (solventless)
» Laser, hot needle and micro perforation
» Slitting

INNOVATION
Our in-house Research and development team with expertise in new product development help us specialize in providing bespoke solutions for all packaging.

QUALITY
Our entire process is organised around ensuring absolute quality with a dedicated team responsible for systematic quality checks at every stage of the manufacturing process.

TECHNOLOGY
PIL is a leader in investing in cutting-edge technologies such as 7-layer extrusion & in-line laser scribing

ACCREDITATION
We have been BRC accredited for more than five years with an excellent record of working with both African and European retailers and multinationals.

PRODUCT RANGE

Food Packaging
» Dairy Packaging
» Confectionery snacks

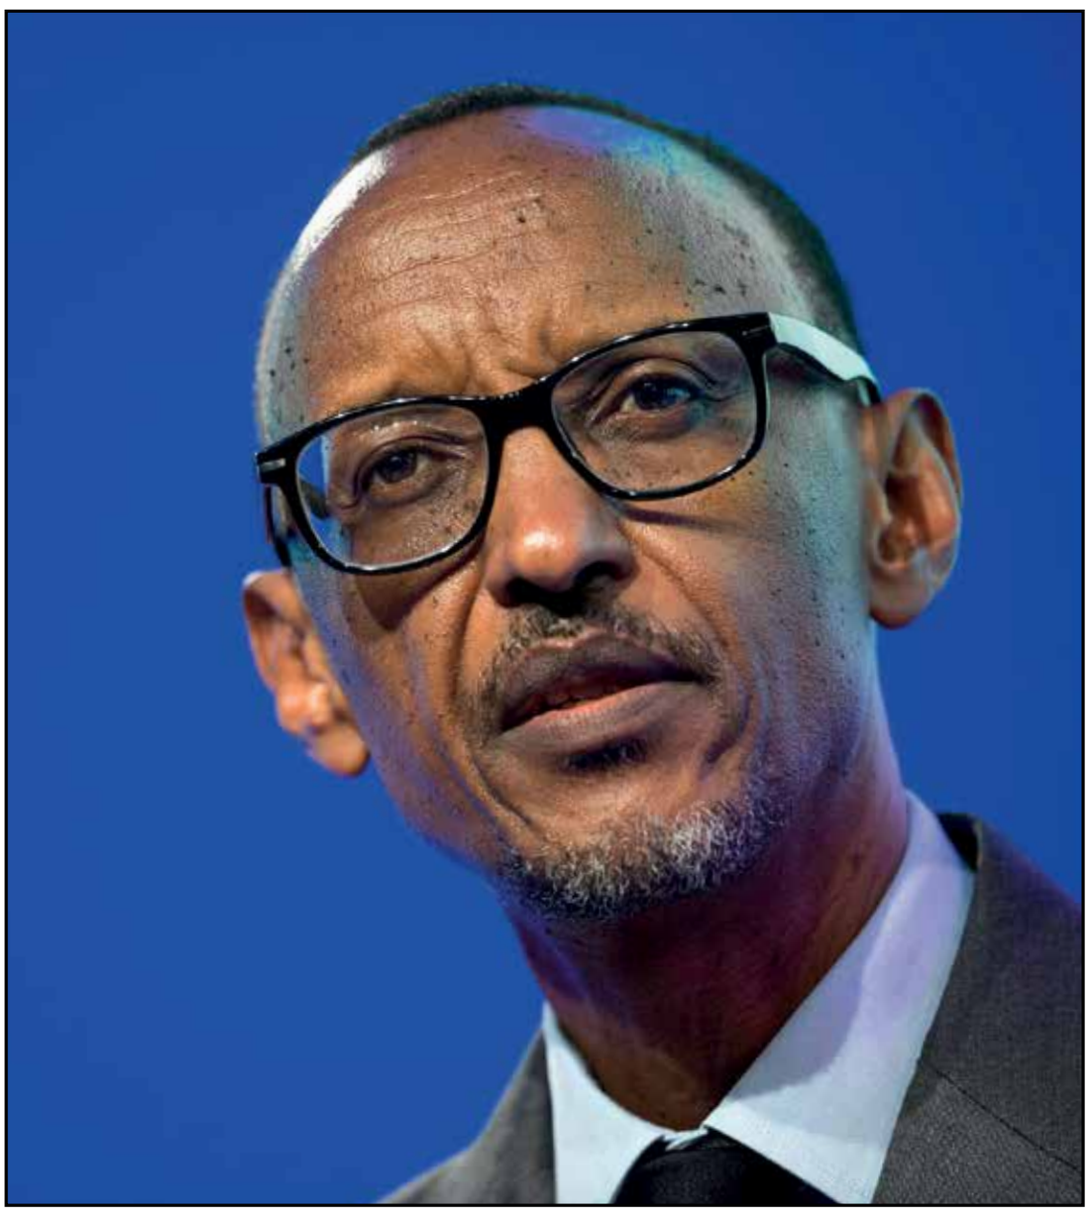
RWANDA

Manufacturer's & Investor's Directory

2022 EDITION



H.E. PAUL KAGAME

President of The Republic of Rwanda

Rwanda Profile

Rwanda officially the Republic of Rwanda (Kinyarwanda: Repubulika y'u Rwanda; French: République du Rwanda, is a sovereign state in central and east Africa and one of the smallest countries on the African mainland. Located a few degrees south of the Equator, Rwanda is bordered by Uganda, Tanzania, Burundi and the Democratic Republic of the Congo. Rwanda is in the African Great Lakes region and is highly elevated; its geography is dominated by mountains in the west and savanna to the east, with numerous lakes throughout the country. The climate is temperate to subtropical, with two rainy seasons and two dry seasons each year.

The population is young and predominantly rural, with a density among the highest in Africa. Rwandans are drawn from just one cultural and linguistic group, the Banyarwanda, although within this group there are three subgroups: the Hutu, Tutsi and Twa. The Twa are a forest-dwelling pygmy people descended from Rwanda's earliest inhabitants. Christianity is the largest religion in the country; the principal language is Kinyarwanda, spoken by most Rwandans, with English and French serving as official languages. Rwanda has a presidential system of government. The president is Paul Kagame of the Rwandan Patriotic Front (RPF), who took office in 2000. Rwanda today has low corruption compared with neighboring countries.

SOUTH SUDAN

Manufacturer's & Investor's Directory

2022 EDITION

H.E. DR. SALVA KIIR

President of the Republic of South Sudan

SOUTH SUDAN BACKGROUND AND ECONOMY

South Sudan, officially the Republic of South Sudan, and previously known as Southern Sudan, is a landlocked country in Middle Africa, in the area of northeast Central Africa that is part of the United Nations sub region of Eastern Africa. South Sudan is bordered by the Republic of Sudan to the north, Kenya to the southeast, Uganda to the south, the Democratic Republic of the Congo to the southwest, the Central African Republic to the west, and Ethiopia to the east.

The economy of South Sudan is one of the most underdeveloped, with South Sudan having little existing infrastructure and the highest maternal mortality and female illiteracy rates in the world as of 2011.

South Sudan exports timber to the international market. Some of the states with the best known teaks and natural trees for timber are Western Equatoria and Central Equatoria. In Central Equatoria, some teak plantations are at Kegulu; the other, oldest planted forest reserves are Kawale, Lijo, Loka West, and Nuni. Western Equatoria timber resources include mvuba trees at Zamoi.

One of the major natural features of South Sudan is the River Nile whose many tributaries have sources in the country. The region also contains many natural resources such as petroleum, iron ore, copper, chromium ore, zinc, tungsten, mica, silver, gold, and hydropower. The country's economy, as in many other developing countries, is heavily dependent on agriculture. Some of the agricultural produce includes cotton, groundnuts (peanuts), sorghum, millet, wheat, gum Arabic, sugarcane, cassava (tapioca), mangos, papaya, bananas, sweet potatoes, and sesame.

Prior to independence, South Sudan produced 85% of Sudanese oil output. The oil revenues according to the Comprehensive Peace Agreement (CPA), were to be split equally for the duration of the agreement period. Since South Sudan relies on pipelines, refineries, and port facilities in Red Sea state is in North Sudan, the agreement stated that the government in Khartoum would receive 50% share of all oil revenues. Oil revenues constitute more than 98% of the government of South Sudan's budget according to the southern government's Ministry of Finance and Economic Planning and this has amounted to more than $8 billion in revenue since the signing of the peace agreement.

Agriculture

South Sudan is rich in agricultural land and has one of the largest populations of pastoralists in the world. However, since 1999, when Sudan first started exporting oil, agricultural production in the country has declined. According to the World Bank, the average annual growth rate of the agricultural sector between 2000 and 2008 was only 3.6 percent, which is considerably lower than the 10.8 percent growth rate of the previous decade. The UN Food and Agriculture Agency (FAO) carried out an extensive satellite land cover survey that showed just 4.5 percent of the available land were under cultivation when South Sudan became independent.

South Sudan relies heavily on food imports from neighboring countries, like Uganda, Kenya and Sudan. These come at a high transportation cost which, coupled with inflation, has caused food prices to rise dramatically in South Sudan. The declining agricultural production and the reliance on expensive foreign food supplies have contributed to a severe food shortage in South Sudan.

The government has begun to address the issue of agriculture and food security. The government of South Sudan has made food production a top priority. The Ministry of Agriculture in South Sudan has announced its goal of boosting food production in South Sudan to two million metric tons per year. South Sudan hopes to attract agricultural investors from Gulf Arab states, Israel, China, the Netherlands and fellow African countries in order to increase production of basic food items such as sugar, rice, cereals and oilseeds, livestock as well as cotton.

The government of South Sudan announced a plan to mobilize $500 billion of foreign investment in the first five years of independence. Much of this investment would be focused in the agricultural sector, where the government hopes to diversify the economy and provide jobs to the large numbers of unemployed. The FAO has also drawn up a $50 million Interim Assistance Plan (IAP) for the agricultural sector that will build capacity in ministerial and state agricultural extension offices. This includes the establishment of a seed production sector and an urban and peri-urban agriculture component.

Smallholder farming accounts for 80 percent of the country's cereal production. Unfortunately, these farmers face a number of constraints, due to high transport costs, unavailability of agricultural inputs, and underdeveloped agricultural extension services. Instead of investing resources into developing the kind of agricultural extension services that could help smallholder production, however, the government has chosen to focus on large-scale, private sector-led industrial agricultural schemes as a way to boost food production.

Donor countries promote the idea that industrial farming is the key to improved food security in South Sudan. The United States Agency for International Development (USAID), for example, is working with Citibank, the IFC, the Corporate Council on Africa, and others to help the country market its resources and attract private capital in key sectors, including agriculture.

This investment is intended to stimulate rural development and generate employment opportunities, increase food productivity, provide government institutions with new and sustainable sources of revenue, and help to diversify the economy. There is some concern, however, that a small transnational elite will benefit at the expense of the rural poor if the country's arable land is used to grow food for foreign populations, while simultaneously pushing communities onto increasingly marginal lands. This could create the potential for more food insecurity, instability, social unrest and conflict. Researchers say.

Nina Pedersen, manager of Norwegian People's Aid (NPA)'s Civil Society Development Project is concerned that in the rush to attract foreign investment for South Sudan, not enough attention was paid as to whether the people negotiating the terms really knew the value of the land they were selling. According to the NPA, prior to South Sudan's declaration of Independence, beginning in 2007, private interests sought and secured 5.15 million hectares of land in the agriculture, biofuels, forestry, carbon credit, and ecotourism sectors—equivalent to more than eight percent of South Sudan's total land area.

One of the largest firms involved is the Egyptian private equity firm Citadel Capital, which has leased 259,500 acres for farming. This plantation has provided little local employment, being mostly run by Zimbabweans. A Ugandan conglomerate called the Madhvani Group has also entered into a preliminary agreement with the government of South Soudan to revitalize a government-owned sugar plantation and processing facility in Mangala Payam. This plantation would cover 10,000 ha of prime riverfront property along the Nile, about 70 kilometers north of Juba.

Concerns about foreign exploitation has led organizations such as OI and NPA to urge a moratorium on new land deals until a better framework is established.

For its part, the South Sudan's Land Commission, a task force headed by Robert Lado in charge of advising the government and drawing up the new policy, is pushing for land administrations at county and sub-county level that are run by community members, including women and tribal elders.

Infrastructure

The nation has some telecommunications service through operators like MTN Group (formerly known as Investcom), but currently lacks the infrastructure to offer high speed Internet connections. In March 2015, South Sudan's minister for telecommunications and postal services revealed plans for the government to lay 1,600 kilometers of fiber-optic cable across the country within two years. The government plans to connect this network with undersea cables via existing infrastructure in Uganda and Tanzania.

TANZANIA

Manufacturer's & Investor's Directory

2022 EDITION

H.E. SAMIA SULUHU

President of the United Republic of Tanzania

TANZANIA BACKGROUND

Tanzania has achieved high growth rates based on its vast natural resource wealth and tourism. GDP growth in 2009-15 was an impressive 6-7% per year. Dar es Salaam used fiscal stimulus measures and easier monetary policies to lessen the impact of the global recession. Tanzania has largely completed its transition to a market economy, though the government retains a presence in sectors such as telecommunications, banking, energy, and mining..

The financial sector in Tanzania has expanded in recent years and foreign-owned banks account for about 48% of the banking industry's total assets. Competition among foreign commercial banks has resulted in significant improvements in the efficiency and quality of financial services, though interest rates are still relatively high, reflecting high fraud risk. Recent banking reforms have helped increase private-sector growth and investment.

PEOPLE AND SOCIETY: TANZANIA

Population estimate: 52,482,726

Note: estimates for this country explicitly take into account the effects of excess mortality due to AIDS; this can result in lower life expectancy, higher infant mortality, higher death rates, lower population growth rates, and changes in the distribution of population by age and sex than would otherwise be expected (July 2016 est.)

Country comparison to the world: 27

Nationality:

Noun: Tanzanian(s)

Adjective: Tanzanian

Ethnic groups:

Mainland - African 99% (of which 95% are Bantu consisting of more than 130 tribes), other 1% (consisting of Asian, European, and Arab); Zanzibar - Arab, African, mixed Arab and African

Languages:

Kiswahili or Swahili (official), Kiunguja (name for Swahili in Zanzibar), English (official, primary language of commerce, administration, and higher education), Arabic (widely spoken in Zanzibar), many local languages

Kiswahili (Swahili) is the mother tongue of the Bantu people living in Zanzibar and nearby coastal Tanzania; although Kiswahili is Bantu in structure and origin, its vocabulary draws on a variety of sources including Arabic and English; it has become the lingua franca of central and eastern Africa; the first language of most people is one of the local languages

Religions:

Christian 61.4%, Muslim 35.2%, folk religion 1.8%, other 0.2%, unaffiliated 1.4%

Zanzibar is almost entirely Muslim (2010 est.)

Demographic profile:

Tanzania has the largest population in East Africa and the lowest population density; almost a third of the population is urban. Tanzania's youthful population – about two-thirds of the population is under 25 is growing rapidly because of the high total fertility rate of 4.8 children per woman. For Tanzania, most migration is internal, rural to urban movement, while some temporary labor migration from towns to plantations takes place seasonally for harvests. Tanzania was Africa's largest refugee-hosting country for decades, hosting hundreds of thousands of refugees from the Great Lakes region, primarily Burundi. Tanzania is increasingly a transit country for illegal migrants from the Horn of Africa and the Great Lakes region who are heading to southern Africa for security reasons and/ or economic opportunities. Some of these migrants choose to settle in Tanzania.

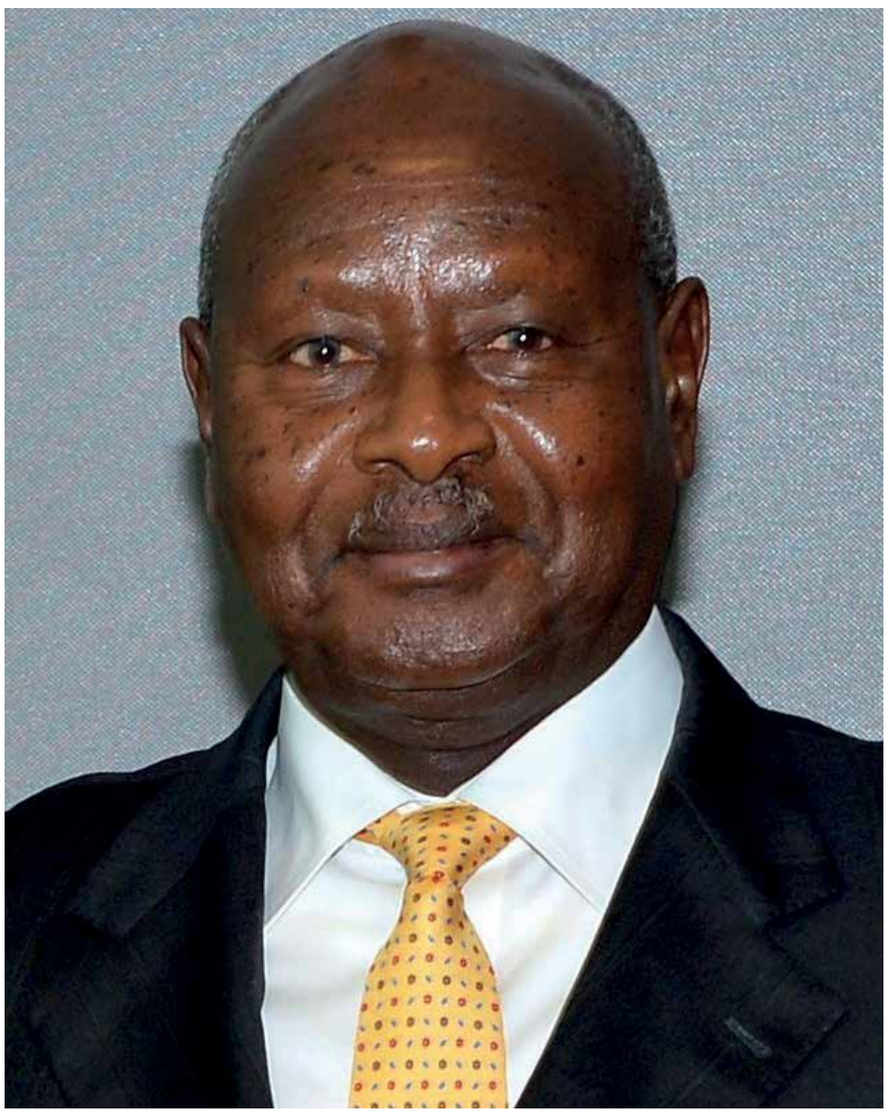
Manufacturer's & Investor's Directory

2022 EDITION



H.E. YOWERI KAGUTA MUSEVENI

President of the Republic of Uganda

Uganda Profile

Uganda officially the Republic of Uganda, is a landlocked country in East Africa. Uganda is bordered to the east by Kenya, to the north by South Sudan, to the west by the Democratic Republic of the Congo, to the southwest by Rwanda, and to the south by Tanzania. Uganda is the world's second most populous landlocked country after Ethiopia. The southern part of the country includes a substantial portion of Lake Victoria, shared with Kenya and Tanzania. Uganda is in the African Great Lakes region. Uganda also lies within the Nile basin, and has a varied but generally a modified equatorial type of climate.

Uganda takes its name from the Buganda kingdom, which encompasses a large portion of the south of the country, including the capital Kampala. The people of Uganda were hunter-gatherers until 1,700 to 2,300 years ago, when Bantu-speaking populations migrated to the southern parts of the country.

Beginning in 1894, the area was ruled as a protectorate by the British, who established administrative law across the territory. Uganda gained independence from Britain on 9 October 1962.

The official language is English,Luganda, a central language, is widely spoken across the country, and several other languages are also spoken including Runyoro, Runyankole, Rukiga, and Luo. The president of Uganda is Yoweri Kaguta Museveni.

Uganda gained independence from Britain on October 9, 1962 as a Commonwealth realm with Queen Elizabeth II as head of state. In October 1963, Uganda became a republic but maintained its membership in the Commonwealth of Nations.

The first post-independence election, held in 1962, was won by an alliance between the Uganda People's Congress (UPC) and Kabaka Yekka (KY). UPC and KY formed the first post-independence government with Milton Obote as executive Prime Minister, the Buganda Kabaka (King) Edward Muteesa II holding the largely ceremonial position of president.

In 1966, following a power struggle between the Obote-led government and King Muteesa, the UPC-dominated parliament changed the constitution and removed the ceremonial president and vice-president. In 1967, a new constitution proclaimed Uganda a republic and abolished the traditional kingdoms. Without first calling elections, Obote was declared the executive president.

Lakes and Rivers

Much of the south of the country is heavily influenced by one of the world's biggest lakes, Lake Victoria, which contains many islands. Most important cities are located in the south, near this lake, including the capital Kampala and the nearby city of Entebbe.

Lake Kyoga is in the Centre of the country and is surrounded by extensive marshy areas.

Although landlocked, Uganda contains many large lakes. Besides Lakes Victoria and Kyoga, there are Lake Albert, Lake Edward, and the smaller Lake George.

Uganda lies almost completely within the Nile basin. The Victoria Nile drains from Lake Victoria into Lake Kyoga and then into Lake Albert on the Congolese border. It then runs northwards into South Sudan. An area in eastern Uganda is drained by the Suam River, part of the internal drainage basin of Lake Turkana. The extreme northeastern part of Uganda drains into the Lotikipi Basin, which is primarily in Kenya.

Environment and conservation

The Crested crane is the national bird.

Conservation in Uganda

Uganda has 60 protected areas, including ten national parks: Bwindi Impenetrable National Park and Rwenzori Mountains National Park (both UNESCO World Heritage Sites[43]), Kibale National Park, Kidepo Valley National Park, Lake Mburo National Park, Mgahinga Gorilla National Park, Mount Elgon National Park, Murchison Falls National Park, Queen Elizabeth National Park, and Semuliki National Park.

Economy and infrastructure

Economy of Uganda, Energy in Uganda, and Agriculture in Uganda The Bank of Uganda is the central bank of Uganda and handles monetary policy along with the printing of the Ugandan shilling.

Uganda's economy generates export income from coffee, tea, fish and other products. The country has commenced economic reforms and growth has been robust.

With the Uganda securities exchanges established in 1996, several equities have been listed. The government has used the stock market as an avenue for privatization. All government treasury issues

Uganda traditionally depends on Kenya for access to the Indian Ocean port of Mombasa. Efforts have intensified to establish a second access route to the sea via the lakeside ports of Bukasa in Uganda and Musoma in Tanzania, connected by railway to Arusha in the Tanzanian interior and to the port of Tanga on the Indian Ocean. Uganda is a member of the East African Community and a potential member of the planned East African Federation.

Uganda has a large diaspora, residing mainly in the United States and the United Kingdom. This diaspora has contributed enormously to Uganda's economic growth through remittances and other investments (especially property). Uganda also serves as an economic hub for a number of neighboring countries like the Democratic Republic of Congo, South Sudan and Rwanda.

WHO WE ARE
Ventura Enterprises SMC Ltd is a registered company designed to offer industrial chemical of the highest quality at an affordable price. The company has worked to determine trends in the industry and how best to address the needs of the customer. We aim to provide customers with exemplary products to keep them coming back for more. The long term aim of the Business is to become the leading supplier of chemical products to manufacturers in Uganda with the highest quality. VESL will occupy a unique market position. Uganda has shown a tremendous opportunity, since the manufacturing industry on various products have been on a fast track and Uganda being a landlocked country, the local raw materials stockiest have always been serving the manufacturing industry with a great relief to them.
Being a new entrant in the market, VESL will have to emphasize on the quality of our product and have to offer competitive pricing.

WE DEAL IN ALL TYPES OF INDUSTRIAL CHEMICALS: AGRICULTURE CHEMICALS AS BELOW

SOAP, DETERGENTS & LAUNDRY:
Caustic soda, LABSA, SLES, Glycerin, Soap Noodles, Soda Ash, Sodium Silicate, STTPP

PAINT, COATINGS & PLASTICS:
Toluene/ Xylene, Acetone/IPA, Glycols/Esters, Resins & Copolymers, Methylene Chloride, White Spirit, Aromatic solvents, Thinners and Driers, Methanol, Ketones, Monomers /Hydro Carbons, Pigments

WATER TREATMENT & IND. CLEANING:
Activated Carbon, Aluminium Sulphate, Chlorine 65% Hydrochloric Acid Hydrogen Peroxide, Sodium Hypochlorite, Soap Noodles, Soda Ash, Sodium silicate, STTPP

FOOD, MILK & SUGAR PROCESSING:
Critic Acid, Maize starch, Nitric Acid, Sodium Benzonate, Sodium Bi Carbonate, L. Glucose, Dextrose, Pot Sorbate, STTPP BEATY & COSMETICS: White oil, Paraffin wax, Micro wax, MPG/MEG, Poly Ethyline Glycols., Methyl/ Propyl, Paraben

OTHER CHEMICALS
Water Filtration item, Lab Testing instruments, Hydro Carbons, Gypsum/POP, Fragrance/Perfumes, Formaidehyde 37%, Zinc Sulphate, Phosphoric Acid 85% FG, Ammonium, Sulphuric Acid, Urea, Bi Carbonate, All Pesticides
